Quality Kitchen and Bath Accessories

These simple yet sharp kitchen and bath products will add a nice touch to your next homebuilding project. The manufacturers compiled here deliver the highest quality products.

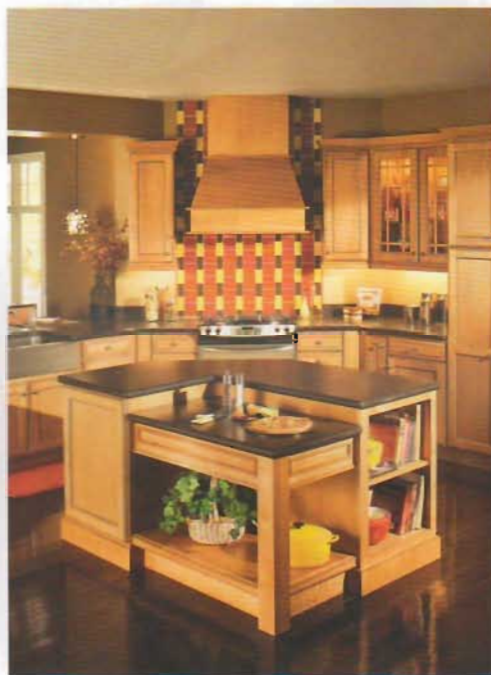

Compiled by Stephanie Consiglio

Fantech

The Fantech Makeup Air System relieves drafting by introducing positive pressure, balanced makeup air direct from the outside. The system can be tailored to your requirements and interlocked with your range hood to supply the same volume of air as that exhausted from the range hood, to achieve "balanced ventilation". Your range hood fan efficiency and the capture and containment of cooking odors is dependent on the makeup air. www.fantech.net

Quality Cabinets

QualityCabinets™ products are certified by the Kitchen Cabinet Manufacturers Association (KCMA) and exceed or meet industry standards for construction and performance. Look for the KCMA seal on the inside of your QualityCabinets™ sink base. At QualityCabinets™, they believe in value at all times and respond quickly to the needs of homeowners and homebuyers. www.qualitycabinets.com

Reader Service #176

Whirlpool

At Whirlpool, they advance technology to the point of simplicity. Creating innovation that's forward thinking for what they choose to put in it – and what they don't: great design that fits seamlessly into life. And is truly a pleasure to live with. Whirlpool appliances do things the way you do them. Your intuition for how to get things done is something they value.
