POWDER COAT FINISHES

Danver Stainless Outdoor Kitchens bring function and style together through our exclusive door styles. The stainless steel cabinetry, doors and drawer fronts provide functional strength and durability, while the extensive color palettes, realistic wood finishes bring style, color and design to what was once a drab space.

Our powder coat finishes are painted prior to assembly, limiting the chance of rust over time and providing a nearly maintenance-free finish. Danver Stainless Outdoor Kitchens has 11 colors to choose from, as well as realistic wood grain finishes, metallic hues and more.

*Sea Glass Insert is available in Seafoam Green, Cloud White and Sky Blue. Not all possibilities are represented here and not all finishes represented here are in stock. Paper and ink limitations of color samples as well as influence from heat and light may account for differences in actual color.
