BROWN JORDAN
OUTDOOR KITCHENS

Trex® Outdoor Kitchens

Trades & Professionals

Our partnerships are designed to provide a best-in-class design and service experience. As a trade and professional partner, you will be paired with dedicated sales liaisons who are committed to luxurious outdoor kitchen solutions for your clients.

Learn about our products and design techniques, get access to our marketing collateral, attend our training sessions, and discover why our three brands are leaders in stainless steel outdoor kitchen cabinetry.

We are thrilled to be your personal resource on your design journey. Let us bring your vision to life.

Trusted Vendors

We've built partnerships with industry leaders in outdoor appliances such as True, Alfresco, PGS, and EVO.

Exclusive Benefits

As a partner, you will receive exclusive benefits as an incentive to build a relationship directly with us.

Personalized Support

We will pair you with a dedicated support team to help you gain a deep understanding of our products.

Our Craft

Our cabinets for outdoor kitchens combine style, design and function with top of the line appliances for a luxury outdoor entertainment space.

Outdoor kitchen cabinets bring the functionality, comfort, convenience, and style of the indoors to the outside. Our 304 and 316 grade stainless steel outdoor kitchen cabinets are specifically tailored to create a cohesive outdoor living space. Each project is built to order, with a wide range of specifications for size, functionality, and style to ensure that your design is unique to you.

Our high-performance outdoor kitchen cabinets are engineered for long-term durability, and they add beauty and functionality to your outdoor space. These qualities make us the top choice for hosting events with family and friends, enjoying nature while cooking outdoors, making memories, and so much more.

Multi-Family

In an ever-evolving market, we stay ahead of our customers' needs. From our Post & Panel System to ADA compliant cabinetry, explore our innovative multi-family solutions.

Owners of multi-family and commercial properties are increasingly investing in high-quality and attractive amenity spaces that are appealing for their occupants. Adding features like outdoor kitchens to your common-use spaces will increase the financial and social value of your property for a lifetime.

Our high-quality, low-maintenance solutions remove the need for costly replacement and upkeep, offering best-in-class durability in all types of environments. With an effortless design process, you will have the peace of mind that we attend to every detail – so you don't have to.

Post & Panel System

Our designers and engineers developed the Post and Panel System (PPS) to meet the unique needs of common-areas in the multi-family or commercial environment. The PPS provides needed countertop space without additional storage, while encompassing the aesthetics of our traditional cabinetry.

With panels that are easily removed and replaced, even with a countertop in place, the PPS is designed for the wear and abuse often associated with multi-family common areas. Used as a stand-alone island or seamlessly integrated with our traditional cabinet line, PPS equips designers, architects and developers with seemingly unlimited configuration options.

ADA Compliant Kitchens

Outdoor kitchens in public spaces must conform to ADA requirements that ensure comfortable accessibility for all. We offer a line of specialized cabinetry that is engineered to comply with ADA regulations. Your project can easily adhere to standards like height, clearance between kitchen cabinets, and recessed areas for wheelchair access.

Our experience in this area has informed our approach in working with public spaces, incorporating innovative design and best practices.

Review our full ADA compliant product offering in our comprehensive spec guide.

The Dillon

Atlanta, GA | 144 Units | Kolter

The Dillon, an Atlanta residential project, features 120 units with outdoor kitchens outfitted on balconies as well as a penthouse apartment with an outdoor entertainment area equipped with an expanded outdoor kitchen.

Rising 18 stories from a naturally elevated site on Peachtree Road, The Dillon surrounds residents with breathtaking views and places a brilliant collection of resort-style amenities at their fingertips. It is an oasis of modern luxury in the heart of Buckhead.

Designed to live like a private club community, The Dillon provides a high level of service and amenities perfect for entertaining, wellness, relaxation, and convenient everyday life.

All kitchens in the project feature the Brown Jordan Outdoor Kitchens exclusive Tecno Collection door styles, finished with an Anthracite Metallic powder coat.

Hospitality

From casinos to country clubs, we've elevated every element of outdoor hospitality to bring customers an exceptional experience.

The hospitality industry has one major goal in mind: top-tier service for customers. As such, venues like hotels, wineries, resorts, casinos, and country clubs place significant value on the entertainment prospects for their patrons.

Well-designed amenity spaces with outdoor kitchens, seating, and pools consistently draw more business to your property

and ensure a memorable open-air experience for your patrons. Stainless steel is the top choice for luxurious outdoor cooking and entertainment spaces, offering the highest quality, longest-lasting products for the hospitality market.

Explore our traditional cabinetry, bar height seating, and rolling carts for the ultimate outdoor kitchen solutions for your venue.

Architects

Outdoor living extends the indoor living space into the outdoors by creating a luxurious retreat for relaxing and entertaining. We support architects in creating this natural transition.

We have extensive experience solving creative problems with considerations for layout, style, budget, climate, and needs. We provide you with the tools to present your clients with a beautiful outdoor entertainment space by helping you:

- Discover our color and door style options, as well as appliance solutions.
- Use our 3D model libraries to visualize outdoor spaces in real time.
- Explore how you can reshape the way your clients enjoy the good life outdoors.

Landscape Architects

Landscaping can make a property truly unique and create beautiful living spaces outdoors. We support landscape architects in creating captivating outdoor spaces with our diverse collections.

From outdoor cooking areas to indoor-outdoor spaces, our products not only elevate the aesthetic appeal but also ensure functionality and practicality.

We'll help you find beautiful and seamless solutions to integrate outdoor kitchens into the landscape that you're designing. More than an outdoor kitchen, we are dedicated to creating an outdoor living experience that is inviting and personal.

Designers

Far beyond stucco islands of the past, outdoor living and entertainment spaces are now a source of design inspiration. As outdoor kitchen design has evolved, our cabinetry and award-winning colors became a designer's dream for nurturing their creative eye.

The opportunity to let your creative side flourish in the great outdoors has never been better. We are your personal resource for bringing creative visions to life at the highest standard for color, style, design, durability, and functionality in outdoor kitchens.

By putting outdoor kitchen design into the hands of designers, our products turn decks, yards, rooftops, and transition rooms into elegant outdoor entertainment spaces – while turning heads in the process.

Builders

Today's home buyers are looking for function, design, and durability in their outdoor entertainment spaces. As a builder, you can increase the value of your project by incorporating outdoor entertainment spaces – complete with outdoor kitchens – into the square footage of the home.

The flexibility of our collections supports the modern builder, whether you design or build single family homes, condos, townhouses, or large multi-family complexes.

We will work closely with you to appeal to your buyers and discover how our products will set your development apart from the rest.

Benefits for Builders

Whether you are a custom builder, part of a design-build firm, or associated with a large volume builder, incorporating our cabinetry and outdoor kitchens as part of your model home or design center means increased home sales. Outdoor kitchens can be offered as a standard feature or an upgrade option to your build.

With over 20 years of engineering know-how, stainless steel construction, and virtually maintenance free cabinetry, your buyers will have years of trouble-free enjoyment in their Stainless Outdoor Kitchen and outdoor spaces.

Profit

Higher Home Sale Price – Increase the home's value and your profit by providing a spectacular outdoor entertaining space as a standard offering or as an upgrade option.

Display Packages

We offer generous cabinetry display packages, proven to motivate homebuyers and spur sales.

Flexibility

We offer many different avenues for collaboration to suit your needs and sales. Work with our factory, our dealers, or our brand partners.

Durability

100% stainless steel cabinetry paired with any of our powder coat finishes offers you a nearly maintenance-free outdoor kitchen.

Customer Satisfaction

We provide warranties on our products and powder coat finishes, as well as hassle-free part replacement, for peace of mind with your purchase. Please inquire for more details.

Made in the U.S.A.

Our cabinetry is manufactured and painted to order in our Connecticut factory, providing unmatched design flexibility and a truly signature product.

Support

Our in-house sales and marketing teams and your local representative will be available to help with quotes, questions, and promotional materials.

Training

We offer training for your design center, showroom, or model home sales personnel to better work with your buyers and close more sales.

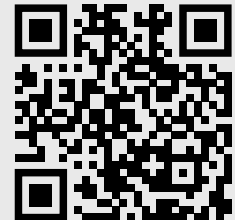

Builders from coast to coast have discovered the benefits that we bring to the home buying process by featuring outdoor and transition room options in model and spec homes. In the communities where this is prevalent, outdoor living spaces have become a must-have for homebuyers.

Become a Partner

Sign up to take advantage of all the exclusive benefits available to our trade partners, like access to training and resources and comprehensive support for our products. Whether you're a builder, a designer, architect, or landscape architect, we will work with you to tailor a support package that fits your style and your scale.

Scan the code below to fill out our contact form and we'll get in touch with you.

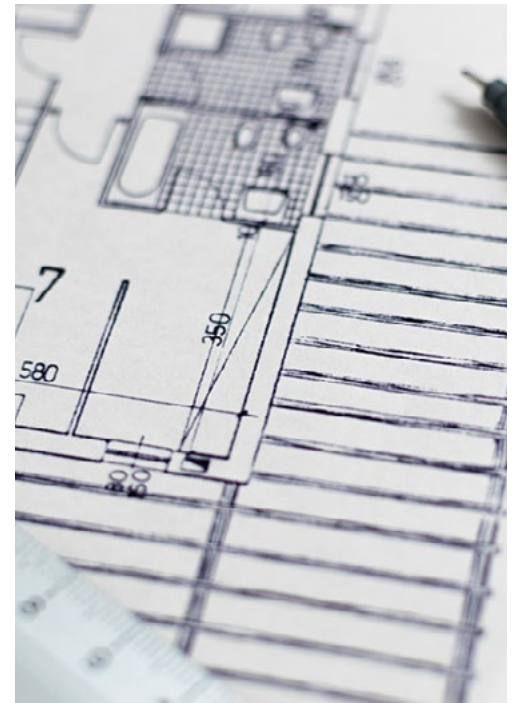

Sales & Marketing Support

Our team is dedicated to supplying you with the resources for creating luxurious outdoor spaces. We offer collateral, samples, quote assistance, and more.

Product Model Libraries

We recognize the importance of visual models to truly bring concepts to life. Our product is modeled in a variety of programs like SketchUp and 2020.

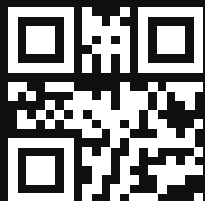

Continuing Education Courses

For course credit or to learn more about our products, we offer two Continuing Education Courses in both self-paced and face-to-face applications.
